

# EXPAND & TAILOR THE POWER OF WORKDAY FOR THE UNIQUE WAY YOU DO BUSINESS

## With Kainos + Workday Extend

Workday's new Platform-as-a-Service has arrived, allowing you to do even more within Workday. Workday Extend lets you bring peripheral tasks and processes into Workday and leverage your Workday data in exciting and powerful new ways. With help from Kainos, you can make Workday work even harder for your business.

## Better business by design

### Go further with Workday Extend

Introduce new BPs and functionality to your current Workday modules and further reduce activity taking place off system via paper, email, and spreadsheets.

### Create with Workday Extend

Support more activities - like travel, facilities or audit. Design and build custom apps to automate, capture data and provide insight, while bringing efficiencies to more corners of your business.

## Workday Extend benefits

### Increase efficiency

by adding functionality not currently available in your Workday.

### Reduce costs

by retiring third-party systems and reducing support effort.

### Deliver a positive user experience

by adding functionality that looks and feels like Workday, ensuring your end users are already familiar with new functionality.

### Protect your data

by using the same security groups and domains that secure the rest of your organisation's data.

### Improve auditability

by moving functionality and processes into Workday.

### Streamline workflows

replacing paper, email and spreadsheet tasks with Workday processes.

## Ways to engage with Kainos

### Option 1: Build & Deliver

We do the analysis, design, build and testing. You do the UAT. Perfect for if you don't have an in-house software design or QA capability.

### Option 2: Advise & Assist

We share our extensive Workday technology and software experience with your internal IT team to guide, advise and collaborate with you across all stages.

## Project stages

## Workday Extend apps & extensions built by Kainos

- Rewards & recognition
- Credit card requests
- Policy document viewer
- Year-at-a-glance absence calendar
- Financial auditing
- Employee feedback analysis
- Employee contract generator
- And many others...

**30+**  
years developing  
software

Workday  
partner since  
**2011**
